

HELLO

MY NAME IS MATT SMITH

Age: 33

Current Location: Belfast, Northern Ireland

I'm primarily an animator and illustrator with a passion for bringing stories to life. I'm highly experienced in the Adobe Creative Suite and I have experience with CelAction, a powerful but lesser-known 2D animation program. My background blends creativity and technical skill, helping me adapt to a range of styles and production pipelines from layout and rigging to animation and compositing. I consider myself a strong team member and strive to leave a positive and fun loving attitude to any company I work for.
